Fernando Olímpio da Silva

Consultant, Cloud & Infra Security | Cloud & Modern Workplace
Specialist | Microsoft 365 | Exchange Online | SharePoint Online |
Azure AD | MCSA Certified | Information Security | M365 Migrations
Camaragibe, Pernambuco, Brasil

Resumo

I'm a Microsoft 365 and Modern Workplace Specialist with over 22 years of experience in IT management, Microsoft 365 migrations, team coordination, and corporate security implementation (DLP, Conditional Access, ISO 27001). I manage large-scale Microsoft 365 environments—including Exchange Online, Teams, SharePoint, OneDrive, and Power Platform—while leading modernization and digital transformation projects aligned with business needs. Core Skills: Microsoft 365 | Office 365 | Azure AD (Entra ID) | Exchange Online | SharePoint Online | Teams | OneDrive | Power Automate | Copilot | Information Security | DLP | Conditional Access | Zero Trust | Cloud Migrations | N3 Support Key Achievements: Participated in over 100 end-to-end Microsoft 365 migrations, including IMAP, Google Workspace, File Servers, SharePoint, and OneDrive. Reduced operational and security risks by implementing DLP policies, Zero Trust practices, and Conditional Access. Designed and deployed a SharePoint-based corporate document center, eliminating the need for traditional File Servers and improving governance, security, and accessibility.

Experiência

Avanade

Consultant, Cloud and Infra Security
janeiro de 2026 - Present (5 meses)
Recife, Pernambuco, Brazil

Designing and implementing security solutions across hybrid and multi-cloud environments, aligned with industry standards and compliance requirements.

Conducting risk and vulnerability assessments, providing actionable recommendations to mitigate potential threats.

Managing identity and access controls (IAM) to ensure secure authentication and authorization practices.

Automating and monitoring security operations with modern tools to enable rapid incident response and resilience.

Collaborating with cross-functional teams to embed security into every stage of project delivery.

Advising clients strategically on secure digital transformation, balancing innovation, scalability, and protection.

HSBS

Senior Information Technology Support Analyst

abril de 2015 - dezembro de 2025 (10 anos 9 meses)

Recife

Professional with over 11 years of experience in IT management, leading multidisciplinary teams, delivering strategic projects, and providing advanced support in corporate environments. Responsible for aligning technology initiatives with business goals, ensuring operational efficiency, information security, and continuous innovation.

Key Responsibilities and Activities

Led multidisciplinary teams in infrastructure, cloud, and modernization projects.

Planned and executed migration initiatives, environment modernization, and digital transformation projects.

Administered Microsoft 365 / Office 365 environments, including Exchange Online, Teams, SharePoint Online, and OneDrive for Business.

Implemented information security policies such as ISO 27001, DLP, Conditional Access, governance, and Zero Trust controls.

Managed IT risk assessments, audits, and regulatory compliance.

Acted as Tier 3 support, managing Active Directory, Windows Server, and hybrid infrastructure environments.

Developed corporate communication and collaboration strategies in cloud environments.

Automated processes using Power Automate, increasing efficiency and reducing operational costs.

Conducted multiple full-scale migrations to Microsoft 365 from platforms such as Google Workspace, Locaweb, Kinghost, Hostking, UOL, IMAP, and Microsoft 365 tenants.

Utilized BitTitan and Quest On-Demand tools to streamline and de-risk complex migration processes.

Migrated Google Sites and File Servers to SharePoint Online, delivering a centralized document management solution with governance and controlled access.

Executed migrations from File Servers and Google Drive to OneDrive for Business, improving collaboration, mobility, and data security.

Designed and implemented digital transformation strategies aligned with business objectives and long-term growth.

Ampla Comunicação
